

new

Specially tempered TCT saw blades

Usage: heavy duty cutting

Machine: cutting along the grain (longitudinal)

Advantages:

Blades are specially heat-treated to prevent breaking of saw body while cutting in extreme conditions.

Longer lifetime of saw blade.

Service:

We provide service of this product:

- sharpening
- complete renovation (polishing, new tip brazing, saw body straightening)

Black- coated TCT saw blades

Usage: specially designed for cutting materials with high content of resin and other dirt.

Machine: multirip saws, rip saws

Advantages:

20% higher lifetime when compared to common TCT saw blade due to special thin, black, chemical coating on saw blade surface.

Service:

We provide service of this product:

- sharpening
- complete renovation (polishing, new tip brazing, saw body straightening, new black-coating)
